PART I

THE COMPOSITE LEGAL ORDER ON FINANCIAL MARKETS

CHAPTER 1

A Brief History of the Evolution of Financial Institutions and Capital Markets and of their Regulation

1.- Why an historic perspective is useful to set the stage and better understand the current financial legal order	13
2.- The origin of capital markets and of Stock Exchanges. (A) A brief overview of the European early antecedents	17
(a) The Flemish and Dutch private origins	17
(b) The French Exchange, the Mississippi Bubble and the first <i>public</i> regulation in the XVIII Century	20
(c) The first London Exchange and the Bubble Act: again scandals (and group interests) as propellers for (emotional) regulation	24
(d) The German and Austrian Exchanges of the XVIII Century	27
3.- The origin of Stock Exchanges. (B) The XIX century evolution and the growing economic and political role of national Stock Exchanges	27
(a) The London Stock Exchange and the 1844 Companies Act	28
(b) The Paris Stock Exchange and its public regulation	31
(c) The Italian Stock Exchanges of the XIX Century and liberal 1882 Code of Commerce	34
4.- Comparative perspectives in the rise of modern banking	38
(a) The English Lombard Street, and the importance of money markets	38
(b) Continental European banking models	44
5.- Towards the contemporary capital market regulation. (A) The engine of change: American legislative history from 1870 to 1933-1934	47
(a) State blue sky laws	52
(b) The federal intervention in the Great Depression	56
6.- Towards the contemporary capital market regulation. (B) The long dominance of the US regulatory model: from the New	

Deal to the Sarbanes Oxley and Dodd Frank Acts	59
(a) An overview of the New Deal regulatory framework	60
(b) The major amendments to the federal regulatory framework up to the new Millenium	62
(c) The new Millenium reforms: the Sarbanes Oxley and Dodd Frank Acts	66
7.- The evolution of American and European banking regulation throughout the XX Century and in the aftermath of the 2007 financial crisis	69
(a) US banking regulation	69
(b) European banking regulation	75
8.- The construction of a pan-European capital market: from a slow start to the impetus of the Financial Services Action Plan and its aftermath following the 2007 financial crisis until the 2015 Capital Markets Union initiative	80
(a) From the Segré Report to the FSAP	81
(b) The 1999 FSAP and the regulatory approach until the 2007 Financial Crisis	88
(c) The regulatory reform after the 2007 Financial Crisis until the 2015 Capital Markets Union initiative	94

CHAPTER 2

The Composite Structure of Financial Law

1.- The multi-faceted nature of financial rules	105
2.- Public vs private modes of regulation	111
(a) The benefits of self-regulation	113
(b) The costs of self-regulation	115
(c) How real are the differences between external and self-regulation?	116
(d) The coexistence between self-regulation and external regulation: the decisive role of co-regulation	118
3.- Self and external regulation from an international supervisory perspective: what future?	119
4.- A few lessons from the crisis on regulation	125
5.- Financial regulation and fundamental rights protection	127
(a) The applicability of the EU Charter in a composite situation	129
(b) The applicability of the ECHR in a composite situation	132

(c) The applicability of “principles” and the applicability to legal persons	135
(d) Who is protected by fundamental rights?	137
(e) What fundamental rights are mostly implicated?	139

PART II

A COMPOSITE SYSTEM FOR IMPLEMENTATION, ENFORCEMENT AND ADJUDICATION

CHAPTER 3

The Regulation of the European System of Financial Supervisors

1.- The antecedents of the 2010 reform: an overview	141
2.- Decentralised national oversight: the allocation of oversight functions on cross border activities	148
(a) Home country control and mutual recognition	148
(b) The several forms of cooperation between home and host competent authorities	151
(c) The exceptional departure from home country control	154
(d) Joint decision-making of two or more competent authorities and delegation of decision making	156
3.- Centralised regulatory supervision conferred upon the European System of Financial Supervisors	157
(a) The establishment of the European Systemic Risk Board	158
(b) The establishment of sector specific ESAs	160
4.- The legal basis for the establishment of the ESFS and its implications on the design of the European supervisory architecture	162
5.- The governance of the ESAs under the founding Regulations	176
6.- The tasks conferred upon the European Supervisory Authorities according to the founding Regulations. Delegated regulatory supervision and more	180
7.- Judicial and quasi-judicial review in the ESFS	183
(a) Quasi-judicial review and the Board of Appeal	183
(b) Judicial review by the CJEU	197
8.- The ECB single supervisory mechanism as a propeller and blueprint for future integrated oversight supervision? The Capital Markets Union initiative and the ways open to the	

future of supervision in the securities sector	200
(a) The need to support EU-wide resolution as an engine for supervisory reform	200
(b) The Capital Markets Union initiative and its implications on supervisory architecture	204

CHAPTER 4

The Single Supervisory Mechanism (“SSM”) and the Single Resolution Mechanism (“SRM”)

1.- The need for enhanced banking supervision within the Euro area. An introduction	211
2.- The SSM Regulation: an overview	215
3.- The SSM distribution of micro- and macro-prudential supervisory competences between the ECB and the relevant NCAs	220
4.- The SSM horizontal and vertical distribution of regulatory competences	228
(a) The horizontal distribution of regulatory competences	228
(b) The vertical distribution of regulatory competences	230
5.- Judicial review in the SSM framework and specific rights in procedures for the imposition of penalties	243
(a) Judicial review of SSM acts	243
(b) Judicial review on administrative penalties applied under Article 18 of the SSM Regulation	249
6.- The SSM and ECB’s monetary functions	256
(a) The prevalence of monetary policy over prudential supervision	257
(b) Implications for supervised credit institutions	260
7.- The Single Resolution Mechanism and the Single Resolution Fund for credit institutions and investment firms covered by consolidated supervision	265
(a) The SRM: an overview	266
(b) Horizontal and vertical distribution of regulatory competences	271
(c) Quasi-judicial remedies within the SRM	273
